

The IO2 has successfully reached the piloting milestone

The piloting phase of the **IO2 StartCraft Training Package** and the **IO3 Market Training Tool** has come to an end. VET trainers and students in the crafts sector located in partner countries (Belgium, Spain, Poland, Greece, Italy) have completed two questionnaires regarding the content, usability and format of the project results. It has to be highlighted that final users' engagement was high in an effort to optimize the results to the maximum possible. Stay tuned for the results of the piloting published in the next newsletter!

Start date: 01/09/2020

End date: 21/10/2022

IO4 Teaching notes for VET trainers

Teaching notes for VET Trainers will help crafts VET students, new and future crafts entrepreneurs to complete the online training with recommendations and pedagogical content to increase the benefits to the final user.

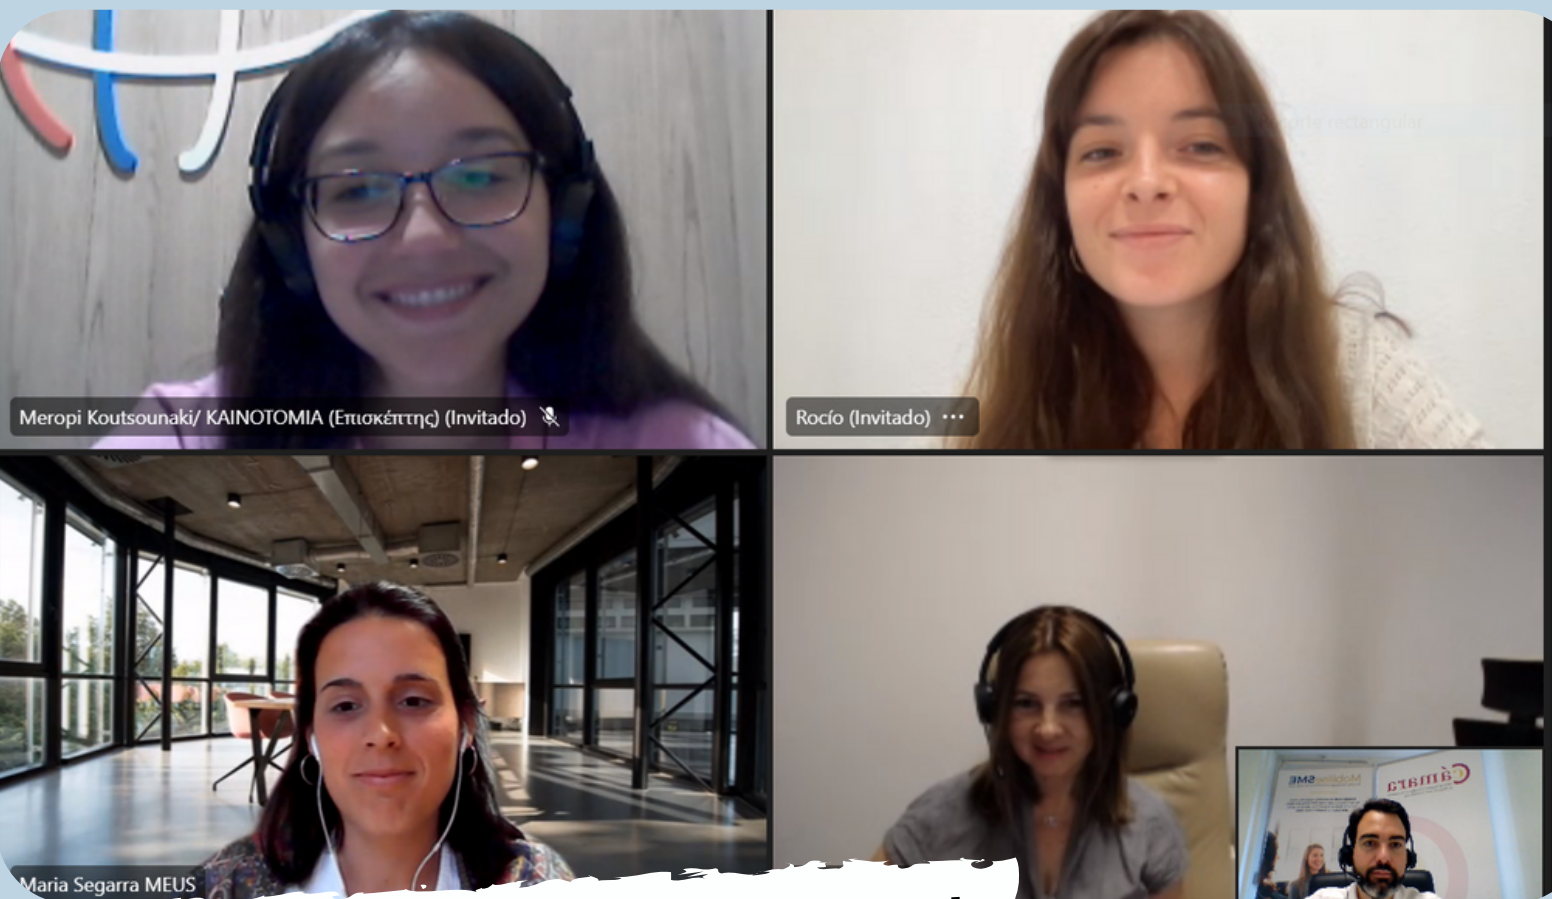

Partners have divided the content into two parts:

- 1) Teaching supporting material: a repository of resources and notes regarding the craft sector
- 2) Teaching notes: one teaching note for each module of IO2

Online meeting

On the 20th of July 2022, partners met online, in order to discuss pending issues and monitor StartCraft's progress. More specifically, they elaborated on:

- finalization of IO2 & IO3 piloting phase
- finalization of IO4 Teaching Notes

Stay tuned for Final Meeting in Brussels

Partners will meet from 27th to 30th of September in Brussels, in order to:

- Review the final results.
- Present the project's results to the public and stakeholders.
- Proceed to institutional networking.
